1 - 2 / 2 < >

Among 31,542 registered players, only 8,800 (around 28%) are active depositors (RD). The remaining 22,742 (72%) haven't deposited any money (RND). Interestingly, non-depositing players (RND) have a total balance of 162,784.37 ETB. This balance likely comes from sources like bonus wins for IQ Soft players or previous balances for Pronet players. However, for depositing players (RD), the picture is different. A small group of just 21 RD players hold a whopping 78% of the total RD balance (621,536.28 ETB). This suggests a significant concentration of balance among a small subset of depositing users.
